

Athanasios Theodorou

Frontend Developer (React)

 athanasiostheodorou13@gmail.com  Athens, Greece  Athanasios Theodorou  athanasios-theodorou

SUMMARY

Frontend Developer specializing in React and modern JavaScript, focused on building responsive, scalable, and user-friendly web applications. Experienced in component-based architecture, state management, and RESTful API integration. Committed to writing clean, maintainable code and continuously improving development practices.

TECHNICAL SKILLS

Frontend: React, Redux, JavaScript (ES6+), HTML5, CSS3

Backend Integration: REST APIs, PHP (Slim Framework), JWT Authentication

Data Layer: MySQL, Doctrine ORM

Tools: Git

PROJECTS

ThesisGate - Bachelor's Thesis Management Platform, Oct 2022 – Oct 2023
Full-Stack Web Application | React, PHP (Slim), MySQL, REST APIs, JWT

- Built a full-stack platform supporting 3 user roles (students, instructors, administrators).
- Designed and implemented 70+ RESTful API endpoints for thesis lifecycle management.
- Implemented secure authentication and role-based access control (RBAC) using JWT.
- Designed a normalized MySQL database schema for structured data management.
- Developed responsive React interfaces with reusable components, state management, and form validation.
- Improved efficiency of thesis submission, assignment and tracking workflows by reducing manual coordination between users.

PROFESSIONAL EXPERIENCE

Administrative Assistant - Office & Data Management Nov 2025 – Feb 2026
Schimatari, Greece

- Processed 100+ customer invoices and transactions per day, ensuring accurate billing and documentation.
- Monitored inventory across 200+ SKUs and performed regular reconciliation to reduce discrepancies.
- Coordinated product orders and deliveries to support efficient stock management.
- Prepared daily operational reports in Microsoft Excel to support inventory and sales analysis.

Production Operator, AKTINA S.A. Jul 2023 – Oct 2023
Oinofyta, Greece

- Worked in a high-volume production environment requiring precision and consistency.
- Collaborated within a 10-member team to meet daily production targets.
- Followed strict operational procedures ensuring quality standards.

EDUCATION

B.Sc. in Digital Systems, University of Thessaly Graduated Jul 2024
Grade Point Average: 7.8
Relevant Coursework: Internet Technologies and Applications, E-Business Systems
Larissa, Greece
